Geriatric Nursing at a Glance

As the population aged more than 65 years continues to grow, caring for the elderly will be of prime importance. This book is primarily intended for both the experienced and novice geriatric care nurses to access necessary, to-the-point information that directly affects geriatric nursing practice. The authors’ principal objective has been to briefly and clearly present some of the important issues they encountered during clinical practice. The text is unique and focuses on the fact that care for older adults must have a holistic focus – body, mind and spirit. The topics range from concepts of theories and cognitive aspects of aging to psychosocial aspects of aging; common health problems and client-centred nursing management.

Green Card (Chasing the American Dream)

An engrossing narrative, *Green Card: Chasing the American Dream*, is based on experiences of people pursuing the big American dream. Though set during the time of the Y2K, the story is very relevant in today’s time when the demand for the American visa has multiplied manifold. This is a story to which the current generation can relate and decide on their priorities and dreams to be followed. This book is about the story of Aseem. For the longest part of his life, Aseem kept chasing a dream – a dream he thought was his destiny, his aspiration, his life. While doing so, he forgot something very important – everything happens in due time. And time takes time. This book makes you realize that have you ever wanted something so much that nothing else around you mattered anymore? So this story left us with a question, did Aseem find his dream or did he, like a lot of us, give up on it to find a new pursuit? Find out in this story of struggle, friendship, love, and deceit.
